## PFAS ARMOR

Reduce your exposure to harmful forever chemicals

NEW PRODUCT

PFAS Armor™ is a water filter cartridge designed to purify your water, by reducing the amount of PFAS and PFOA in your water supply.

It does this by providing a whole home filtration system that filters your water at the point of entry. You can buy a complete system containing a 'BIG 20 inch' filter housing, PFAS ARMOR cartridge, bracket and spanner.

**PFAS ARMOR provides 95% or greater reduction in PFAS & PFOA**

**Tested with 1,5 µg/l in influent water containing PFAS/PFOA**

### What is PFAS/PFOA?

PFAS/PFOA are a large group of over 14,000 synthetic chemicals, they are often referred to as "forever chemicals", because they do not break down in the environment.

They are typically used in various industrial and consumer products, due to their resistance to heat, water, and oil. New studies show that these chemicals are extremely harmful to human health and the environment.

### Benefits

- Removes toxic chemicals from your water supply
- Removes odour, improves taste
- PFAS ARMOR cartridge lasts up to one year
- Easy and quick installation

Model	Stock Code	Micron
PFAS ARMOR Cartridge	3205350	Up to 1 Micron
PFAS ARMOR Complete System	3205700	Up to 1 Micron

### Official Distributer of Atlas Filtri in the UK

## PFAS ARMOR

<b>Product Materials:</b>	PP Polypropylene, Gasket: NBR
<b>Max Flow Rate:</b>	30 lpm (1.8 m³/hr)
<b>Min/Max Temperature:</b>	4°C – 45°C (Water Temp)
<b>Lifespan:</b>	Up to 12 Months (113,000L Capacity)
<b>Install Guidelines:</b>	Point of Entry Whole Home Filtration System

# Forever Chemicals

For now and always.

PFAS-ARMOR: Your shield against forever chemicals

## The Forever Pollution Project

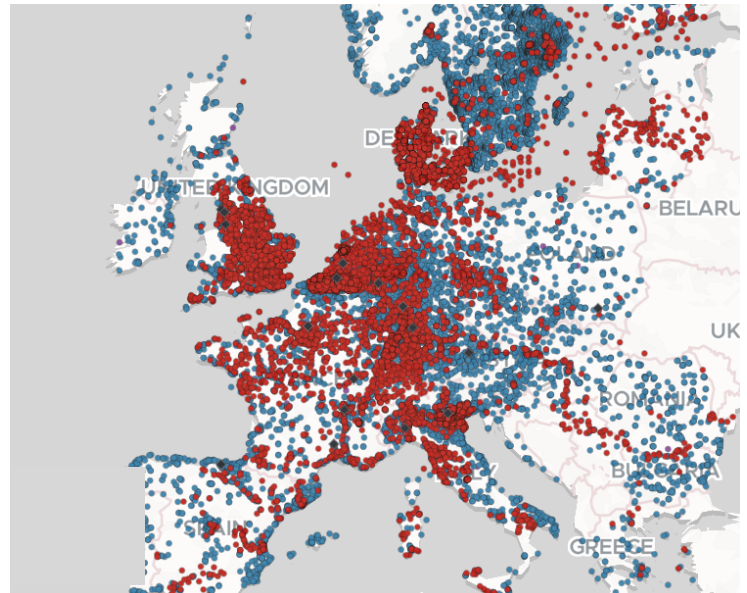

Journalists tracking PFAS across Europe

This map is from the forever pollution project, a collaboration of journalists and media from across Europe, unveiling the scale and character of the pollution with PFAS.

In early 2023, the Forever Pollution Project showed that nearly 23,000 sites all over Europe are contaminated by the "forever chemicals" PFAS.

**23,000 sites** where pfas contamination **has been detected**, with over **21,500** presumptive contamination sites across the european continent.

Source: The Forever Pollution Project

● Presumptive contamination ◆ PFAS manufacturing  
● Known contamination ● Known PFAS User

## Reducing PFAS Exposure

Protecting yourself from PFAS/PFOA

- Use certified water filters for removing PFAS
- Use 'PFAS FREE' labelled cosmetics
- Choose fresh foods with minimal packaging
- Stay informed with local & regional guidelines
- Use safer cookware e.g. Stainless Steel

**PFAS-ARMOR** is a new solution to help you filter your water, and reduce exposure to these **forever harmful chemicals**.

**PRFAS ARMOR Provides 95% Or Greater Reduction In PFAS/PFOA**

Tested With 1,5 µg/L in Influent water containing **PFAS/PFOA**
